Objective:

To leverage my extensive experience in software development to contribute effectively to a dynamic tech company focused on innovation and growth.

Education:

Bachelor of Science in Computer Science
University of Technology, City, State
Graduated: May 2018

Skills:

- Proficient in Java, Python, C++
- Experienced with web development frameworks (Django, Flask)
- Strong understanding of database management systems (MySQL, PostgreSQL)
- Familiar with Agile development methodologies
- Excellent problem-solving and analytical skills

Experience:

Software Developer
XYZ Tech Solutions, City, State
March 2018 - Present

- Developed scalable web applications using Django framework, contributing to 30% reduction in load times.
- Implemented RESTful APIs for seamless integration between front-end and back-end systems.
- Collaborated with cross-functional teams to deliver projects on time and within budget.

Junior Software Engineer Intern
ABC Software, City, State
June 2017 - August 2017

- Assisted in the development and testing of new software applications, gaining exposure to full software development lifecycle.
- Troubleshooted and debugged issues in existing codebase, enhancing overall application performance.

Projects:

- Online Shopping Platform: Led the development of a secure e-commerce website using Django and PostgreSQL, handling user authentication and product catalog management.
- Personal Finance Tracker: Created a web application to track expenses and incomes using Flask and SQLite.
